PORTFOLIO

THE SOCIAL NETWORK OF RESEARCHERS TO EXPOSE AND SHARE

Clir Clinical Research Insider Network is the ideal worldwide social network for any researcher, whether clinical or any other type. Its main objective is to be a way for researchers to communicate and thus share their work, expose what they have accomplished or even get involved in an ongoing investigation.

MANIFEST OF AGILE DEVELOPMENT

We are uncovering better ways of developing software by doing it and helping others do it.

Through this work we have come to value:

Individuals and interactions over processes and tools.

Working software over comprehensive documentation.

Customer collaboration over contract negotiation.

Responding to change over following a plan.

That is, while there is value in the items on the right, we value the items on the left more.
