

# codebay

*We deliver agile software  
development teams as a service.*

**PORTFOLIO**

## EDUCATION

The company offers online English language learning services, accompanied by native language tutors in individual classes. The company originally from Tulsa, in Oklahoma, has students in different Spanish-speaking countries positioning itself as one of the main platforms in distance learning today.

### ISSUE:

The development and maintenance of the platform was compromised by a development team which did not meet the minimum accepted standards for the growth and support of the system.

The platform began to have a series of anomalies which severely affected its operation.

### SOLUTION:

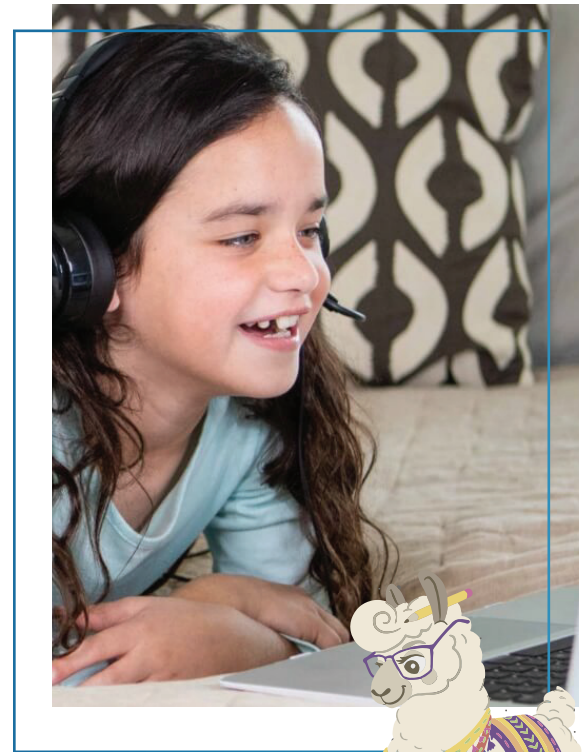

Our team at the time of getting involved in the project began to train the company's programmers and our agile development methodology was implemented, in addition, a communication standard for daily meetings was established with them.

The priority was and continues to be that the current managers know at all times the status of the modules being developed, and that they have knowledge of what is happening with the system (For this, a direct communication channel was created, and a results meeting was scheduled every two weeks).

**YEAR** 2020

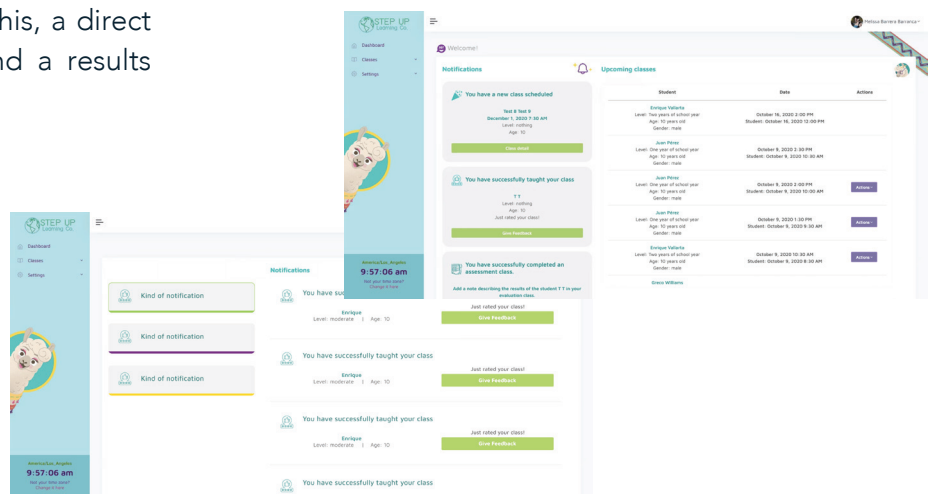

### TECHNOLOGIES

PHP, Vue.js, AWS

Currently, errors have been corrected, a more robust server was implemented for the main platform and a test version was created, also due to the implementation of our methodology, the development metrics have been exceeded.

And in addition to the above, our team has become the technical support area for students and teachers.

# MANIFEST OF AGILE DEVELOPMENT

---

We are uncovering better ways of developing software by doing it and helping others do it.

Through this work we have come to value:

**Individuals and interactions** over processes and tools.

**Working software** over comprehensive documentation.

**Customer collaboration** over contract negotiation.

**Responding to change** over following a plan.

That is, while there is value in the items on the right, we value the items on the left more.

KENT BECK, MIKE BEEDLE, ARIE VAN BENNEKUM, ALISTAIR COCKBURN, WARD CUNNINGHAM, MARTIN FOWLER, JAMES GRENNING, JIM HIGHSMITH, ANDREW HUNT, RON JEFFRIES, JON KERN, BRIAN MARICK, ROBERT C. MARTIN, STEVE MELLOR, KEN SCHWABER, JEFF SUTHERLAND Y DAVE THOMAS.
